

*Event Technology Services  
Wifi Pricing 2025*

<b><u>Bandwidth</u></b>	<b><u>Price per Day</u></b>	<b><u>Rough Estimate on Number of Supportable Devices</u></b>
10Mbps	\$300 per day	21 to 60 Devices*
25Mbps	\$750 per day	61 to 100 Devices*
50Mbps	\$1,000 per day	101 to 200 Devices*
100Mbps	\$2,000 per day	201 to 500 Devices*
200Mbps	\$3,500 per day	501 to 1000 Devices*
300Mbps	\$4,500 per day	1001 to 1500 Devices*
400Mbps	\$5,500 per day	1501 to 2000 Devices*
500Mbps	\$6,500 per day	2000+ Devices*

Contact the Event Technology department for bandwidth requirements above what has been listed. Custom Network Names and Passwords are a one-time \$100 charge per Network Name.

**\*Number of supportable devices is for reference only and the estimate is based on casual use scenarios. This could vary based on individual user behavior, number of devices per user, and the types of software applications being used. All of these factors can consume bandwidth differently. Internet intensive groups should plan for higher bandwidth based on their particular group's history. Bandwidth amount can be changed from day to day, for groups that expect heavy usage on some days and less on others. We have the ability to make bandwidth adjustment as needed on site.**

## **Basic wifi will be provided.**

If you need a higher bandwidth for your booth, please contact:

Megan Buttars, CMP

Senior Convention Services Manager
